

Spirantixai

Bring practical AI learning to your community

Friendly, plain-language sessions help seniors understand today's AI tools, use them with confidence, and protect important information.

FLEXIBLE FORMATS

Meet your group where they are

Single talk

An approachable introduction with time for questions.

Hands-on workshop

Guided practice with prompts and everyday tasks.

Multi-week course

A paced learning path with time to build confidence.

Guest session

A focused visit within an existing class or program.

WHAT PARTICIPANTS GAIN

Useful skills for everyday life

- ✓ A clear explanation of what AI is and where it can help
- ✓ Practice asking ChatGPT, Claude, and similar tools useful questions
- ✓ Simple habits for protecting private and financial information
- ✓ How to spot scams, false AI answers, and misinformation
- ✓ Confidence to keep learning after the session ends

FOR COMMUNITY AND LEARNING LEADERS

Simple to host, easy to shape for your community

In-person sessions are preferred, with video available when needed. Most engagements are free. When travel is required, a modest minimum may apply only to cover expenses.

Helpful to have: a room, display, internet connection, and an estimated group size

Let's plan a session for your community
